

Firewall Source Inventory

Vendor-neutral extraction generated before migration optimization

Extraction Metadata	
Source Vendor	fortigate
Hostname	HQ-FW-東京
Input Type	Configuration File
Source Version	7.4.x
Source Context	root
Extracted At (UTC)	2026-08-24T02:06:26.691613+00:00
	COMPLETE_WITH_UNSUPPORTED_ITE
Extraction Status	MS

Inventory Counts	
Interfaces	1
Zones	1
Addresses	2
Address Groups	1
Services	1
Service Groups	1
Schedules	0
Policies	1
NAT Rules	1
VPN Tunnels	1
Routes	1
Internet Services	0
Security Profiles	1
Warnings	2
Unsupported Items	1
Unresolved References	1

Interfaces

No objects were represented in this IR collection.

Name	Zone	IP / Prefix	Enabled	Alias	Parent	Tag	VLAN ID	Management Profile	PPPoE Mode	PPPoE Username	Description
port1	trust	10.0.0.1/24	Yes								

Zones

No objects were represented in this IR collection.

Name	Interfaces	Description
trust	port1	

Addresses

[illegible]

Address Groups

No objects were represented in this IR collection.

Name	Members	Dynamic	Dynamic Filter	Tags	Description
User Group	Users Remote Users	No			

Services

No objects were represented in this IR collection.

Name	Protocol / Port	Description
Web	tcp/443 udp/443	

Service Groups

No objects were represented in this IR collection.

Name	Members	Description
Web Group	Web	

Schedules

No objects were represented in this IR collection.

Name	Start	End	Days
------	-------	-----	------

NAT Rules

No objects were represented in this IR collection.

Name	Type	From Zone	To Zone	Original Source	Original Destination	Service	Translated Source	Translated Destination	Translated Port	Description
Outbound-NAT	source			Users	any	any	203.0.113.10			

VPN Tunnels

No objects were represented in this IR collection.

Name	Peer Address	Local Interface	IKE Version	PSK	IKE Crypto Profile	IPsec Crypto Profile	Description
VPN-HQ	192.0.2.1	port1	v1	Configured / Redacted	default	default	

Routes

No objects were represented in this IR collection.

Name	Destination	Interface	Next Hop	Metric	Description
default	0.0.0.0/0		10.0.0.254	10	

Internet Services

No objects were represented in this IR collection.

Name	Description
------	-------------

Security Profiles

No objects were represented in this IR collection.

Name	Antivirus	Vulnerability	Anti-Spyware	URL Filtering	File Blocking	WildFire	SSL Decryption	Description
------	-----------	---------------	--------------	---------------	---------------	----------	----------------	-------------

strict	default							
--------	---------	--	--	--	--	--	--	--

Warnings

No audit warnings were reported. See Extraction Coverage before assuming extraction is complete.

ID	Category	Confidence	Message
warn-1	Reference	partial	Unresolved object requires review
unsupported-1	router bgp	unsupported	No IR mapping implemented; token=*****

Unsupported

No unsupported items were reported. See Extraction Coverage before assuming extraction is complete.

Section	Item	Status	Reason	Manual Review	Raw Capture
router bgp	unsupported-1	Unsupported	No IR mapping implemented; token=*****	Yes	Audit entry; raw source intentionally

Extraction Coverage

Source-section evidence is unavailable in IR; inferred counts are not proof of parser completeness.

Source Section	Found	Objects	Parser Status	IR Status	Notes
Interfaces		1	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
Zones		1	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
Addresses		2	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
Address Groups		1	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
Services		1	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
Service Groups		1	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
Schedules		0	Not reported	Empty / unknown	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
Policies		1	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
NAT Rules		1	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
VPN Tunnels		1	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
Routes		1	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
Internet Services		0	Not reported	Empty / unknown	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
Security Profiles		1	Not reported	Populated	Phase 1 exports IR only; source-section coverage awaits Extraction Results Phase 2
